

CANTILEVER GATE TRACK SYSTEM By COMUNELLO

The *Comunello* cantilever gate hardware offers a professional solution which avoids many of the maintenance problems with traditional sliding gates and satisfies your requirements for installing a cantilever gate, even with complicated applications or large dimensions. Moreover, the hardware can be used on any gate material.

*Steel *Aluminum * Stainless
*Vinyl *Wood *Chain Link

Benefits

- * Higher weight capacity
- * Works with any gate material
- * Smaller overall gate length
- * Reduces load on gate operator
- * Low maintenance
- * Minimal visible hardware
- * Cost effective compared to traditional cantilever hardware
- * Easy to install
- * Durable even for high traffic applications

NOTE: WE ONLY SUPPLY THE HARDWARE, NOT THE GATE ITSELF
