

Samson Gate Closer

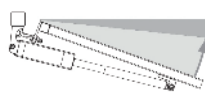

150° Opening - For Steel, Aluminum, Vinyl, Chain Link and Wood Gates up to 330 lbs.

The next generation of gate closers. Even easier to install and smoother functioning. The final snap can easily be adjusted after installation by turning the corresponding adjustment screw. The Samson can be posed in almost every situation thanks to the various brackets delivered with the product. Due to the patented damping system, the operation of the gate closer is unaffected by temperature changes.

TB100 Turtle Gate Closer

90° Opening - Closes gate up to 125 lbs.

Under the cover view of TB100

The TB100 Turtle Back Hydraulic Gate Closer is designed to push a gate closed with adjustable hydraulic speed control. The closing speed is fully adjustable, allowing the gate to close in a controlled manner. The TB100 is recommended for pool, garden and barrier gates, as well as lightweight (non fire-rated) doors. The TB100 works best on gates with in-line/flush hinges to the gate post with 1" or less gap between the gate post and gate.

LKTB100
